LUCAS ANDRADE DA SILVA (SAMPLE)

Software Engineer | AI-Assisted Systems & Development (Java • Python • Flutter • SQL)

São Paulo, SP, Brazil (Remote B2B / Worldwide) • (+55) 11 98765-4321 • lucas.example@email.com • **linkedin.com/in/example-dev** • **github.com/example-dev**

PROFESSIONAL SUMMARY

Analytical, high-velocity Software Engineer with active research in **emerging technologies** (AI-assisted software engineering, LLM orchestration, and modern backend systems). Proven track record executing **Proof of Concepts (PoCs)**, rapid prototyping, environment setup, and **performance metrics collection/benchmarking**. Solid foundation in **Java (OOP, Spring Boot), Python, Flutter, and SQL**, with hands-on proficiency in **Git/GitHub version control (branching, PRs, worktrees)**, **REST API consumption and integration**, relational and NoSQL databases, and formal technical documentation (SOPs). Fluent in English.

TECHNICAL SKILLS

AI-Assisted Software Engineering & Emerging Tech: Multi-Agent Parallel Workflows, Git Worktrees, Shared Context/Memory (AGENTS.md), LLM Research & Benchmarking, PoC Execution.

Languages & Frameworks: Java (Spring Boot, Hibernate), Python (FastAPI, Pandas), Dart/Flutter, JavaScript, TypeScript, SQL, React.

Version Control & APIs: Git & GitHub (Branching Strategies, Pull Requests, Code Reviews, Worktrees), REST API Design & Consumption (JSON payloads, HTTP methods, Axios/Fetch, error handling).

Databases: Relational (PostgreSQL, MySQL, query optimization) and NoSQL (MongoDB, Firebase Firestore).

Systems, Quality & Metrics: Scripting & Automation (PowerShell, Python, Bash), Performance Profiling & Metrics Collection, Docker Basics, Automated Testing, SOP & Technical Documentation, L1/L2 Technical Support.

FEATURED PROJECTS

E-Commerce Platform & Inventory Backend — **Java, Spring Boot, React, PostgreSQL, REST API**

- Engineered a full-stack digital catalog and inventory management platform, executing an initial integration PoC.
- Designed and consumed RESTful API endpoints with structured JSON schemas, request validation, and error handling.
- Optimized PostgreSQL queries with strategic indexing, collecting performance metrics to reduce query response latency.
- Source Code: github.com/example-dev/ecommerce-backend

Health Tracker & Routine Assistant — **Flutter, Dart, Firebase NoSQL, REST API**

- Developed cross-platform mobile application (iOS/Android) featuring real-time task management and push alerts.
- Implemented REST API consumption and NoSQL data synchronization (Firebase Firestore) for real-time and offline persistence.
- Maintained rigorous Git version control with feature branches and pull requests, adhering to Clean Architecture.
- Source Code: github.com/example-dev/health-tracker

JobHunter AI — Automated Jobs Engine & Benchmarking — **Python, Playwright, REST APIs, PoC**

- Designed automated Python engine that consumes APIs and public feeds of remote jobs, calculating algorithmic compatibility.
- Conducted latency benchmarks and accuracy metrics collection across automated ATS form workflows.
- Source Code: github.com/example-dev/job-hunter-ai

WORK EXPERIENCE

TechCorp Solutions — **01/2025 – Present**
Software Development & IT Support Intern — *São Paulo, Brazil*

- Supported internal ERP systems and Linux servers; developed Python scripts for database load automation and reporting.
- Authored Standard Operating Procedures (SOPs) for server failover and incident handling, cutting resolution time by 35%.
- Executed hardware/software diagnostics, tracked network uptime metrics, and assisted in testing new software rollouts.

Varejo Express Logistics — **06/2024 – 12/2024**
IT Operations Assistant (Technical Training & Local Support) — *São Paulo, Brazil*

- Front-line retail operations with technical cross-training for store IT hardware, POS terminals, and peripheral devices.
- Delivered L1 troubleshooting for point-of-sale systems, thermal printers, and network connectivity.

EDUCATION

Bachelor of Technology in Systems Analysis & Development — **2024 – 2026 (Expected)**
Faculty of Technology — In Progress — *São Paulo, Brazil*

LANGUAGES

English: Advanced / Fluent (Professional working proficiency) • **Portuguese:** Native
